THE ART IN SOCIETY Fountain Square

LOCATION OF WORK AND COMMUNICATION

It is investigated that changing the environment and more time spent in the fresh air contributes to improving the efficiency of work. That is why we decided to create a special zone for working people who are often at home or in the office.

The entertainment area, located next to the work area, is designed to provide a great place to relax and cheer up after the work session.

The aim of this project is not only to preserve the architectural and historical value of the palace, but also to modernize its territory so that it meets the modern needs of the community. The development of a project for the effective functional use of space takes into account the needs and desires of local residents, in order to turn the palace into a center of cultural and social life, attracting the attention of tourists.

- 1 - Working Area under the canopy
- 2 - Working Area
- 3 - Smoking Area
- 4 - Entertainment Area
- 5 - Creative Zone
- 6 - Fair Zone
